DEVELOPMENT AID

I offer my body, speech and mind to the peerless master, the representative of all the buddhas and bodhisattvas of the ten directions so that I may have enough strength whenever I do anything for the benefit of sentient beings. Through your great compassion, please accept these three offerings for their sake.

I offer my body, belongings and virtue to all sentient beings so as to eliminate their suffering. May they accept and use them as they need in the cause of liberation. May my offering be suitable and may it become a source of happiness. I will continue to make it until samsara has emptied.

May the seed of liberation be sown in the mind of any sentient being who sees, hears, remembers or touches me. May harmful actions directed at me by sentient beings, whether they criticise me, present me with obstacles or illness, or even put my life at risk, never be the cause of their suffering. I will support their actions utterly and serve them faithfully.
